Motion Acupuncture (MA)

With Dr. Decheng Chen, Ph.D., L.Ac.

Motion Acupuncture (MA) refers to a unique acupuncture technique where a patient performs exercises under supervision of doctors with needles inserted and retained in the points throughout the acupuncture session. It is a comprehensive acupuncture therapy that combines channels and meridians theories, tendons and sinews theories, anatomy, kinematics, and acupuncture, which is mainly for the treatment of soft tissue injuries and a variety of pain conditions.

This workshop will include:

- Introduction to Soft tissue and needling sensation
- Motion Acupuncture techniques for loosening soft tissue
- Introduction to Motion Acupuncture therapy
- Motion acupuncture treatment

Presenter:

Dr. Decheng Chen has a Ph.D. in acupuncture. Licensed Acupuncturist in NY, President of Natural Acupuncture & Wellness, Director of TCM and Acupuncture Inheritance base of New York, USA by WFAS. President of American TCM Acupuncture Inheritance Association, Vice president of External treatment committee of World Traditional Chinese Medicine Pharmaceutical Association Federation.
